

Angels Watching Over Me Academy

To Whom It May Concern:

I work at Angels Watching Over Me Academy, a preschool in Tennessee, and we use ChildrenView for the cameras in our classrooms. The parents love it! It allows out of town relatives to view their grandchildren, nieces, nephews, etc. In addition to that, it also gives the parents piece of mind because they can physically see what is going on with their child. Even from an administrative viewpoint, the cameras are a blessing. Whenever there is a question regarding what exactly happened in one of our classrooms, we are able to pull up the record of what occurred to get a better and unbiased understanding of what happened since we are able to physically see what took place.

I would definitely recommend putting cameras in every preschool and ChildrenView is a great company to help you do that. They are reasonably priced, very accessible, and willing to work around your schedule. In addition to all these things, they are also very diligent about maintaining your company's website and offer you as much control over it as you wish to have. If you want them to handle the whole thing they are more than happy to do that for you, or if you have someone at your company that wishes to maintain it then they are more that happy to grant access to the website for that person. Overall, ChildrenView is a great company that is a joy to work with. They are always willing to answer/assist with any questions or concerns you may have. I would definitely recommend them!

Sincerely,

Erin Woodward-Smith
